

**NEET PG MEDICAL & DENTAL ADMISSION / COUNSELING 2020
(Rajasthan State)**

Important information regarding choice filling

19.07.2020

Before starting choice filling, all concerned candidates are required to carefully refer "Instructions for Choice Filling" available at the website.

Candidates must keep in mind that during choice filling, the choices appear for selection based on the fact that any seat may fall vacant due to upgradation of a candidate during the on-line allotment processing and such a vacant seat may not be a part of the provisional vacant seat matrix round 2 (19.07.2020) that is available at the website. So, candidates must consider selecting as many choices/ options as they wish, during choice filling. There is no restriction for filling maximum number of choices.

Candidates are advised to keep in touch with the website for further announcements.
